

Current Development Dashboard

Page Overview

This page documents our current development areas and goals. It also contains links to documents relevant to current development areas.

- [Page Overview](#)
- [Plans and Documentation](#)
- [Ticket Tracking Dashboards](#)

Note: Some documents are password protected per NASA software release requirements. For example, design documents related to current development can only be made public after formal release approval including export control. These documents are marked with an "**".

Plans and Documentation

- [Weekly Meeting Minutes](#)
- [Requirements Specification](#): GMAT's CCB approved as well as working requirements.
- [Functional Specifications](#): Details on user interface elements including defaults, ranges, descriptions, etc.
- [Field Specifications](#) for GMAT Features

Ticket Tracking Dashboards

- [Agile Board](#): This dashboard is used for CCB and prioritization of open tickets.
- [Sprint Tracking Board](#): This dashboard is used to plan and track work in the current Sprint.
