

Training

The GMAT team holds an annual series of training courses:

- **GMAT Fundamentals**: introduction to GMAT, background, general-usage tutorials
- (proposed) **Advanced GMAT**: advanced tutorials, design & optimization techniques
- (proposed) **GMAT Development**: compiling, architecture, writing plugins, participating in development

How do I attend?

Watch the [blog](#) or the [gmat-info](#) mailing list for announcements. Typically we will offer a free remote web-conferencing option for off-site folks.

GMAT Fundamentals

The most recent version of this course was held October 29, 2014.

Download all materials here: [GMAT Fundamentals \(2014-10-29\).zip](#)

Videos are being edited and will be posted to GMAT's [YouTube channel](#). For now, the 2014-06-30 training is available.

For previous iterations of the class, see the following files:

- June 30, 2014: [GMAT Fundamentals \(2014-06-30\).zip](#)
- January 25 and February 1, 2013: [GMAT Fundamentals \(2013-01\).zip](#)

Advanced GMAT
